Synthetic Survey Codebook

Example only. All data are fictional.

Variable	Description	Code	Label	Notes
gender	Gender	1	Male	Nominal; use response names as factor levels
gender	Gender	2	Female	
gender	Gender	9	No response	
income	Monthly income	9999	Refused	Numeric amount
life_sat	Life satisfaction	1	Very dissatisfied	Numeric score
life_sat	Life satisfaction	2	Dissatisfied	
life_sat	Life satisfaction	3	Neutral	
life_sat	Life satisfaction	4	Satisfied	
life_sat	Life satisfaction	5	Very satisfied	
life_sat	Life satisfaction	9	Missing response	
case_id	Synthetic unique identifier			
wave	Survey wave			

Gender becomes a factor. Income and life satisfaction remain numeric.
Missing-code conversion is reviewed and selected separately.

This fixture tests PDF parsing, category definitions and page attribution.
